- Material Design. (2018). *Icons - Material Design*. Available at: <https://material.io/tools/icons/?style=baseline>.

These icons are covered by an Apache License, a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form. The only legal requirement in obtaining this, is attaching **this** notice to our work.

- GooglePlay Services (2018) - *Location Services*. Version: *com.google.android.gms:play-services-location:15.0.1*

The GooglePlay Services extend the more general Google Terms of Service (Google ToS). Google ToS grants a personal, worldwide, royalty-free, non-assignable and non-exclusive license to use the software provided by Google as part of the Services. This license is for the sole purpose of using and enjoying the benefit of the Services as provided by Google, in the manner permitted by these terms. We are not at liberty to copy, modify, distribute, sell, or lease any part of our Services or included software, nor reverse engineer or attempt to extract the source code of that software.

- PostgreSQL Database (2018) - *Driver*. Version: *org.postgresql.Driver:9.4.1212*

The PostgreSQL Database software is free to use, copy and modify for any purpose. The only legal requirement for this is the presence of **this** legal notice in all copies of the software.

- Android Studio 3.1.2 (2018) - *Application builder*. Build #AI-173.4720617

Subject to the terms and conditions of this License, we obtain a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

[please see Appendix 3.1]

2 Officially Releasing

Thanks to our concentrated use of third parties, deploying our application would only entail minor adjustments. This means we would simply need to add the required notices for the Material Design, PostgreSQL Database, and Android Studio licenses to be satisfied. The GooglePlay Service license does not impose any additional constraints on our work and is thus not an issue.

3 Appendix

3.1 Android Studio license requirements (from the in app license)

You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

- You must give any other recipients of the Work or Derivative Works a copy of this License; and
- You must cause any modified files to carry prominent notices stating that You changed the files; and
- You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
- If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.
